

Highlights of June 30th CMS Teleconference on Section 111 Reporting

In its June 30th teleconference on Section 111 Reporting Issues, the Centers for Medicare and Medicaid (CMS) provided a series of policy updates to address new alerts concerning 1) risk management, 2) who must report, and treatment of clinical trials. Other issues addressed included the treatment of lump sum indemnity payments, mass torts, retroactive liability, the requirement to obtain social security numbers or HICNs, and reporting of injuries where there is cumulative trauma.

A review of the teleconference and links to referenced CMS Alerts is provided in the Members Only section. Click [here](#) to login.
